

## Go The Distance With The New Wanderer

# infinite

Running to a meeting, but expecting an important call? Have a customer on the line, but need to look up some information in another office? With The Wanderer, Vodavi's new integrated wireless telephone, you can handle those calls with the freedom and mobility of a cordless handset, plus have access to all of your most important *infinite* DVX<sup>plus</sup> and XTS telephone system features and functions.

### An Integrated Solution Providing Cordless Convenience

#### Features:

- *Provides mobility from 100' to over 250'\**
- *2.4 GHz Digital Spread Spectrum Technology for clear and secure transmissions*
- *Integrated to provide access to infinite DVX<sup>plus</sup> and XTS telephone system features and functions*
- *Speed Dial stores up to 20 frequently dialed telephone numbers*
- *2 x 12 character LCD Display with Caller ID information*
- *4 hours of continuous talk time and 24 hours of standby time, with low battery indication*
- *Mute button is useful in noisy environments or when a private side conversation is needed*
- *Locator button on charger base rings handset to help you locate it*

*\*Range may vary based on environment.*

#### Integration Is the Key

With *The Wanderer* you don't need any special wiring or a separate extension number to have cordless convenience. This means no additional cost for single line telephone equipment. The unit simply plugs into the back of any *infinite* DVX<sup>plus</sup> or XTS digital key telephone and with the touch of a few keystrokes, you're ready to go. *The Wanderer* provides a mobility range from 100' to over 250' depending upon your environment.

Best of all, you don't have to sacrifice telephone system features and functions to use *The Wanderer*. Engineered to seamlessly integrate with your *infinite* DVX<sup>plus</sup> or XTS Digital Telephone System, you have access to your most used features, such as Intercom Calling, Hold, Conference, Transfer, Mute, Redial, Volume Control, Flash and Speed Dial, through fixed feature buttons, plus an additional programmable flexible feature button.

#### Ease of Use

*The Wanderer's* LCD features an interactive display that allows the user to see Caller ID as well as feature information.

#### Cordless Convenience Provides Mobility

*The Wanderer* addresses many common communications challenges. The lightweight, 2.4 GHz, cordless handset provides you with superior sound quality and the mobility not available with traditional wired telephones. With *The Wanderer*, there are no more missed calls, inaccurate messages or endless phone tag. It gives you the flexibility to wander away from your desk to a nearby office or meeting room and still be available at your regular telephone or extension number.

#### Accessibility Is What Counts

The demands of your job and your customers require you to be more accessible than ever. If you are frequently away from your desk, you no longer have to rely on voice mail as your primary communications method; with *The Wanderer* you will receive all of your calls. Also, because it uses the same telephone number and extension as your desktop telephone, no one needs to know or remember additional telephone numbers.

Now you can be out there, where you need to be - whether that be on the showroom floor, the warehouse, the call center or the conference room - and still be able to get those calls.
